Dear Don,

I wanted to thank you for the partnership we have with the Giving Maine Promise program. We have had great success with this relationship over the past four years. We appreciate your willingness to partner with us to share messages about education - specifically focusing on the Learning Results and the efforts of the Maine Coalition for Excellence in Education, the work of the Maine Compact for Higher Education, the programs Jobs for Maine Graduates provide to middle school and high school students in Maine, and the free field trips the Gulf of Maine Research Institute provides to 5th and 6th grade students across Maine. All of these organizations' missions tie so closely together, and their combined work along with your support through news, public service announcements, Unum's paid time, and 60-minute specials all are working together to make Maine a better place.

We look forward to our continue partnership, and hope to expand this in the near future with the Let's Go! campaign to fight childhood obesity.

Regards,
Cary

Good morning Cary,

A request from Don:

The FCC is coming to Portland early next week for a local public hearing and the station would like to provide them with notes/testimonials from someone like Unum about our community involvement and Giving Maine Promise/Learning Matters. I know how busy you are, but a short email note to Don would be much appreciated if you have a moment.

Thank you very much -

Please let me know what you have available this week to catch up.

Thank you,
Pam

Thank you so very much for the Pet Corner on your site. I had to have my sweet "CK" put to sleep on 5/24/04. She was almost 20 years old. We shared a life together for over 18 years. I took her in when nobody wanted her. She was a longhaired orange tabby female kitty. She loved to ride in my car and travel and loved being with me in my arms outside or playing on the lawn together. I'm having her cremated and her ashes will be returned to me in her own little urn. Our ashes will be joined when it's my turn to go. Thanks to your Pet Corner link. I adopted a 12 year old kitty named Cleo from the ARL in Westbrook. She is so sweet and in honor, and memory, of CK, I wanted to give another, that nobody wanted, a loving home. Sincerely George Mason (Falmouth)

From: "Robert Newberry" <SaveTheAles@hotmail.com>

To: "Craig Clark" <crclark@wgme.sbgnet.com>

Craig just wanted to thank you on getting back to me so quickly and helping me get on the right track. First off I made the mistake of saying I was pointed due north, that was incorrect I was pointed directly west. Once I got on the roof I had someone inside watch the TV, I started moving the antenna to the south east and the reception got worse, so just for fun I started moving it back to the west where I had it and just a few degrees from where I had it (barely north west) WGME came in perfectly along with the rest of the local channels. Seems like that slight tweak was all that was needed to get the happy medium. I am doing this because I am a DTV owner and I already had the equipment to pick up local channels off air.

Thank you for your help!

Dear Don,

It was a pleasure talking with you today. You are a wonderful man to take the time to send a positive message. Were we all so thoughtful, this world would be a better place.

In the hours after the 9/11 incident, we searched for ways to reflect the mood of this nation. Before sunset that day, we were airing station I.D.'s with the American Flag as a backdrop. Before too many more days past, we began airing the videos of children reciting the pledge prior to our newscasts. We hope this is a tradition that lives forever. We think it's all about "Giving Maine Promise", and helping to point our kids in the right direction.

We are committed to making this a better place for children, youth, and families.

With deepest appreciation,

Alan Cartwright

Comments: Hi, I enjoy your news broadcasts, especially the rapport between the anchors. But I specifically watch your station in the evening to see "The Point" at the end of the six or eleven o'clock news. It hasn't been on this week. When are you airing it now? It brings a refreshing and thought-provoking point of view to my day. Please bring it back.

Sincerely,
Rachel Henry
Canton

BRAVO on today's Thursday's Child! Sarah, great job presenting Damian's wonderful interest in science at USM, Gorham! The piece was smooth, and very inviting to viewers!

Thank you all very much for your hard work for Maine's Foster Children,
Karen
